EDEN PARK ACADEMY - Maths Progression Map (EYFS, KS1, KS2)

Number and Place Value

Counting

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
the composition • verbally count beyond 20, r	ies without counting) up to 5 g of number to 10, including	count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number			count backwards through zero to include negative numbers	Interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero	use negative numbers in context, and calculate intervals across zero
develop fast recognition of up to 3 objects, without having to count them individually ('subsidising')	subitise with patterns, 5 and 10 frames, dots on dice, fingers, etc count objects, actions and sounds, up to 10'	count, read and write numbers to 100 in numerals; count in multiples of twos, fives and tens	count in steps of 2, 3, and 5 from 0, and in tens from any number, forward or backward	count from 0 in multiples of 4, 8, 50 and 100;	count in multiples of 6, 7, 9, 25 and 1000	count forwards or backwards in steps of powers of 10 for any given number up to 1000 000	
item in order: 1, 2, 3, 4, 5 know that the last number reached when counting a small set of objects tells you how many there are in total ('cardinal principal') recite numbers past 5 (up to 10) forwards and backwards	count beyond ten	given a number, identify one more and one less		find 10 or 100 more or less than a given number	find 1000 more or less than a given number		

Comparing Numbers

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
• Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity		use the language of: equal to, more than, less than (fewer), most, least	compare and order numbers from 0 up to 100; use <, > and = signs	compare and order numbers up to 1000	order and compare numbers beyond 1000	read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)	read, write, order and compare numbers up to 10 000000 and determine the value of each digit (appears also in Reading and Writing Numbers)
 compare quantities using language: 'more than', 'fewer than' 	compare numbers using vocabulary: 'more than', 'less than', 'fewer', 'the same as', 'equal to'				compare numbers with the same number of decimal places up to two decimal places (copied from Fractions)		

	than/one less than' relationship between consecutive numbers						
		I	l dentifying, representing	and estimating number	rs .		
Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
 have a deep understandir 	L <mark>G:</mark> ng of number to 10, including n of each number	identify and represent numbers using objects and pictorial representations including the number line	identify, represent and estimate numbers using different representations, including the number line	identify, represent and estimate numbers using different representations	identify, represent and estimate numbers using different representations		
show 'finger numbers' up to 5 and can link numerals to amounts of 5 [for example, showing the right number of objects to match the numeral, up to 5] experiment with their own symbols and marks as well as numerals	link the number symbol (numeral) with its cardinal number value, up to 10	including the number line	including the number line				
		Read	ling and writing numbers	including Roman Nume	erals)		
Nursery							
Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
• have a deep understanding	Reception LG: ng of number to 10, including to of each number	read and write numbers from 1 to 20 in numerals and words.	read and write numbers to at least 100 in numerals and in words	Year 3 read and write numbers up to 1000 in numerals and in words	Year 4	read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Comparing Numbers)	read, write, order and compare numbers up to 1 000 000 and determine the value of each digit (appear also in Understanding Place Value)
• have a deep understanding	LG: ng of number to 10, including	read and write numbers from 1 to 20 in numerals	read and write numbers to at least 100 in numerals	read and write numbers up to 1000 in numerals and in	read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and place value.	read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in	read, write, order and compare numbers up to 3 000 000 and determine the value of each digit (appear also in Understanding Pla
• have a deep understanding the composition the composition the composition the composition that the composition t	Link the number symbol with its cardinal value Begin to represent number with own symbols Practise reading and writing numbers from 1 to 10 in	read and write numbers from 1 to 20 in numerals	read and write numbers to at least 100 in numerals and in words	read and write numbers up to 1000 in numerals and in words tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour and 24- hour clocks (copied	read Roman numerals to 100 (I to C) and know that over time, the numeral system changed to include the concept of zero and	read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Comparing Numbers) read Roman numerals to 1000 (M) and recognise years written in Roman	read, write, order and compare numbers up to 1 000 000 and determine th value of each digit (appea also in Understanding Place

Have a deep understanding composition of Verbally count beyond 20, r	IG: If numbers to 10, including the of each number. ecognizing the pattern of the g system.		recognise the place value of each digit in a two-digit number (tens, ones)	recognise the place value of each digit in a three digit number (hundreds, tens, ones)	recognise the place value of each digit in a four-digit number (thousands, hundreds, tens, and ones)	read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)	read, write, order and compare numbers up to 10 000 000 and determine the value of each digit (appears also in Reading and Writing Numbers)
Recite numbers up to 10 forwards and backwards	Practise reading and writing numbers from 1 to 10 in numerals and words. Link the number symbol with its cardinal number value. Explore and notice patterns of the counting system Count beyond 10				find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as units, tenths and hundredths (copied from Fractions)	recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents (copied from Fractions)	identify the value of each digit to three decimal places and multiply and divide numbers by 10, 100 and 1000 where the answers are up to three decimal places (copied from Fractions)
			Rour	nding			
Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
					round any number to the nearest 10, 100 or 1 000	round any number up to 1 000 000 to the nearest 10, 100, 1 000, 10 000 and 100 000	round any whole number to a required degree of accuracy
					round decimals with one decimal place to the nearest whole number (copied from Fractions)	round decimals with two decimal places to the nearest whole number and to one decimal place (copied from Fractions)	solve problems which require answers to be rounded to specified degrees of accuracy (copied from Fractions)
			Problem	Solving			
Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
			use place value and number facts to solve problems	solve number problems and practical problems involving these ideas.	solve number and practical problems that involve all of the above and with	solve number problems and practical problems that involve all of the above	solve number and practical problems that involve all of the above

Number Bonds

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
counting or other aids) num	nout reference to rhymes, ber bonds up to 5 (including numbers bonds to 10 including	represent and use number bonds and related subtraction facts within 20	recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100				
	Automatically recall number bonds for numbers to 5						
	to 10						

Mental Calculation

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Subitise Automatically recallnumb	G: e up to 5 er bonds up to 5and some D including double facts.	add and subtract one digit and two-digit numbers to 20, including zero	add and subtract numbers using concrete objects, pictorial representations, and mentally, including: * a two-digit number and	add and subtract numbers mentally, including: * a three-digit number and ones * a three-digit number and		add and subtract numbers mentally with increasingly large numbers	perform mental calculations, including with mixed operations and large numbers
Fast recognition of up to 3 objects, without having to count them (subitising)	subitise with patterns, 5 and 10 frames, dots on dice, fingers, etc Automatically recall number bonds for numbers 0 – 10		* a two-digit number and tens * two two-digit numbers * two two-digit numbers * adding three one-digit numbers	* a three-digit number and hundreds			
	Recall subtraction facts for number bonds to 5 To understand and recall some doubling facts up to 10.	read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs (appears also in Written Methods)	show that addition of two numbers can be done in any order (commutative) and subtraction of one number from another cannot				use their knowledge of the order of operations to carry out calculations involving the four operations

Written Methods

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	G: f number to 10, including the f each number	read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals		add and subtract numbers with up to three digits, using formal written methods of columnar	add and subtract numbers with up to 4 digits using the formal written methods of columnar addition and	add and subtract whole numbers with more than 4 digits, including using formal written methods	

Show finger numbers up to 5 Experiment with their own symbols and marks as well as numerals	Link the number symbol with its cardinal number value	(=) signs (appears also in Mental Calculation)	addition and subtraction	subtraction where appropriate	(columnar addition and subtraction)	
	To become familiar with and understand					
	mathematical symbols linked to addition and subtraction.					
	To begin to represent mathematical sentences with appropriate symbols					

Inverse operations, estimating and checking answers

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
			recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.		estimate and use inverse operations to check answers to a calculation	use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy	use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy.

Problem Solving

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
		solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as 7 = ? - 9	solve problems with addition and subtraction: * using concrete objects and pictorial representations, including those involving numbers, quantities and measures * applying their increasing knowledge of mental and written methods	solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction	solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why	solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why	solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why
			solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change (copied from Measurement)				Solve problems involving addition, subtraction, multiplication and division

- Maths Progression Map (EYFS, KS1, KS2)

Multiplication and Division

Multiplication and division facts

Explore and represent patterns within numbers up to 10, including evens and odds, double facts and how quantities can be distributed equally To learn about sharing between groups of people/toys. To understand concept of odd and even numbers. To understand concept of odd and even numbers. To understand concept of odd and even numbers. Count in multiples of twos, fives and tens (copied from Number and Place Value) Count in steps of 2, 3, and 5 from 0, and in tens from any number, forward or backward (copied from Number and Place Value) To learn about sharing between groups of people/toys. To understand concept of odd and even numbers. Count in multiples of 4, 8, 50 and 100 (copied from Number and Place Value) To be introduced to the concepts of sharing equally and doubling. To understand concept of odd and even numbers. Count in multiples of 2, 3, and 5 from 0, and in tens from any number, forward or backward (copied from Number and Place Value) To be introduced to the concepts of sharing equally and doubling. To understand concept of odd and even numbers. Count in steps of 2, 3, and 5 from 0, and in tens from any number forward or backward (copied from Number and Place Value) To be introduced to the concepts of sharing equally and division facts for the 3, 4 and 8 multiplication tables up to 12 × 12	Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
between groups of people/toys. people/toys. To understand concept of people between groups of people/toys. and division facts for the 2, and division facts for the 3, and division facts for multiplication tables up to tables To understand concept of to understand concept	Explore and represent patte including evens and odds, do	rns within numbers up to 10, uble facts and how quantities	fives and tens (copied from	from 0, and in tens from any number, forward or backward (copied from	4, 8, 50 and 100 (copied from Number and Place	25 and 1 000 (copied from	backwards in steps of powers of 10 for any given number up to 1 000 000 (copied from Number and

Mental calculation

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Automatically recall numb number bonds to 10 i	er bonds up to 5 and some			write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods (appears also in Written Methods)	use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying together three numbers	multiply and divide numbers mentally drawing upon known facts	perform mental calculations, including with mixed operations and large numbers
	Automatically recall number bonds for numbers 0- 10		show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot		recognise and use factor pairs and commutativity in mental calculations (appears also in Properties of Numbers)	multiply and divide whole numbers and those involving decimals by 10, 100 and 1000	associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. 3 /8) (copied from Fractions)
			by another cannot		of Numbers)		

Written calculation

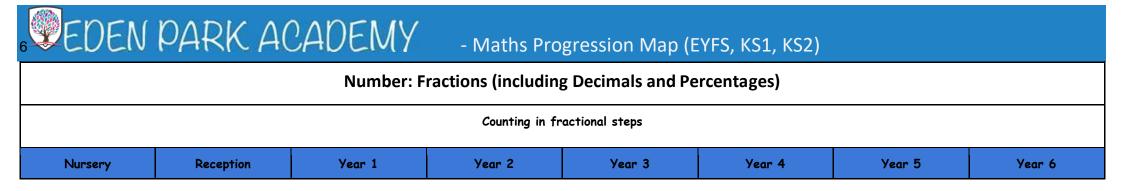

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
composition o Explore and represent patincluding evens and odds, do	f number to 10, including the f each number terns within numbers to 10, uble facts and how quantities outed equally		calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (x), division (÷) and equals (=) signs	write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using	multiply two-digit and three-digit numbers by a one-digit number using formal written layout	multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two- digit numbers	multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication

			mental and progressing to formal written methods (appears also in Mental Methods)		
Experiment with their own symbols and marks as well as numerals	To begin to represent mathematical statements with appropriate symbols.			divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context	divide numbers up to 4- digits by a two-digit whole number using the formal written method of short division where appropriate for the context divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding, as appropriate for the context
					use written division methods in cases where the answer has up to two decimal places (copied from Fractions (including decimals)

Properties of numbers: Multiples, factors, primes, square and cube numbers

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
					recognise and use factor pairs and commutativity in mental calculations (repeated)	identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers. know and use the vocabulary of prime numbers, prime factors and composite (non-prime) number establish whether a number up to 100 is prime and recall prime numbers up to	identify common factors, common multiples and prime numbers use common factors to simplify fractions; use common multiples to express fractions in the same denomination (copied from Fractions)
						recognise and use square numbers and cube numbers, and the notation for squared and cubed	calculate, estimate and compare volume of cubes and cuboids using standard units, including centimetre cubed (cm 3) and cubic metres (m 3), and extending to other units

							such as mm 3 and km 3 (copied from Measures)					
			Order of	operations								
Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6					
							use their knowledge of the order of operations to carry out calculations involving the four operations					
	Inverse operations, estimating and checking answers											
Nursery	Nursery Reception Year 1 Year 2 Year 3 Year 4 Year 5 Year 6											
				estimate the answer to a calculation and use inverse operations to check answers (copied from Addition and Subtraction)	estimate and use inverse operations to check answers to a calculation (copied from Addition and Subtraction)		use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy					
	Problem Solving											
Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6					
		solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher	solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts	solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected to m objects	solve problems involving multiplying and adding, including using the distributive law to multiply two digit numbers by one digit, integer scaling problems and harder correspondence problems such as n objects are connected to m objects	solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes	solve problems involving addition, subtraction, multiplication and division					
						solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign						
						solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates	solve problems involving similar shapes where the scale factor is known or can be found (copied from Ratio and Proportion)					

	Beginning to use the term "half" and understand it means sharing into 2 equal parts (NO ELG)		Pupils should count in fractions up to 10, starting from any number and using the1/2 and 2/4 equivalence on the number line (Non Statutory Guidance)	count up and down in tenths	count up and down in hundredths								
	Recognising fractions												
Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6						
		recognise, find and name a half as one of two equal parts of an object, shape or quantity	recognise, find, name and write fractions 1/3,1/4,2/4 and 3/4 of a length, shape, set of objects or quantity	recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators recognise that tenths arise from dividing an object into 10 equal parts and in dividing one – digit numbers or quantities by	recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten	recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents (appears also in Equivalence)							
		recognise, find and name a quarter as one of four equal parts of an object, shape or quantity		recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators									
			Comparing	fractions									
Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6						
				compare and order unit fractions, and fractions with the same denominators		compare and order fractions whose denominators are all multiples of the same number	compare and order fractions, including fractions >1						
			Comparing	g decimals									
Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6						
					compare numbers with the same number of decimal places up to two decimal places	read, write, order and compare numbers with up to three decimal places	identify the value of each digit in numbers given to three decimal places						
			Rounding incl	uding decimals									

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
					round decimals with one decimal place to the nearest whole number	round decimals with two decimal places to the nearest whole number and to one decimal place	solve problems which require answers to be rounded to specified degrees of accuracy			
Equivalence (including fractions, decimals and percentages)										
Nuncome	Pagantian	Voca 1	Voor 2	Voor 3	Voor 4	Voor 5	Voon 6			

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
			write simple fractions e.g. 1 / 2 of 6 = 3 and recognise the equivalence of 2 / 4 and 1 / 2.	recognise and show, using diagrams, equivalent fractions with small denominators	recognise and show, using diagrams, families of common equivalent fractions	identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths	use common factors to simplify fractions; use common multiples to express fractions in the same denomination
					recognise and write decimal equivalents of any number of tenths or hundredths	read and write decimal numbers as fractions (e.g. 0.71 = 71 / 100)	associate a fraction with division and calculate decimal fraction
						recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents	equivalents (e.g. 0.375) for a simple fraction (e.g. 3 / 8)
					recognise and write decimal equivalents to 1/4; 1/2; 3/4	recognise the per cent symbol (%) and understand that per cent relates to "number of parts per hundred", and write percentages as a fraction with denominator 100 as a decimal fraction	recall and use equivalences between simple fractions, decimals and percentages, including in different contexts.

Addition and Subtraction of fractions

Nursery Reception Year 1 Year 2 Year 3 Year 4 Ye	ear 5 Year 6
with the same denominator with the same and multiple number of the other mathematical 1 as a mixed	add and subtract fractions with different denominators and mixed numbers er fractions and om one form to er and write (all statements > 1 number (e.g. 2 6 / 5 = 1 1 / 5)

Multiplication and division of fractions

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
						multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams	multiply simple pairs of proper fractions, writing the answer in its simplest form (e.g. $1/4 \times 1/2 = 1/8$)
							multiply one-digit numbers with up to two decimal places by whole numbers
							divide proper fractions by whole numbers (e.g. $1/3 \div 2 = 1/6$
			Multiplication and	division of decimals			
Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
							multiply one-digit numbers with up to two decimal places by whole numbers
					find the effect of dividing a one- or two-digit number by 10 and 100, identifying the value of the digits in the answer as ones, tenths and hundredths		multiply and divide numbers by 10, 100 and 1000 where the answers are up to three decimal places
							identify the value of each digit to three decimal places and multiply and divide numbers by 10, 100 and 1000 where the answers are up to three decimal places
							associate a fraction with division and calculate decimal fraction equivalents (e.g. 0.375) for a simple fraction (e.g. 3 /8)
							use written division methods in cases where the answer has up to two decimal places
			Problem	Solving			
Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6

		solve problems that involve all of the above	solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number	solve problems involving numbers up to three decimal places	
			solve simple measure and money problems involving fractions and decimals to two decimal places.	solve problems which require knowing percentage and decimal equivalents of 1/2,1/4, 1/5,2/5,4/5 and those with a denominator of a multiple of 10 or 25	

EDEN PARK ACADEMY

- Maths Progression Map (EYFS, KS1, KS2)

Ratio and Proportion

Statements only appear in Year 6 but should be connected to previous learning, particularly fractions and multiplication and division

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
							solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts
							solve problems involving the calculation of percentages [for example, of measures, and such as 15% of 360] and the use of percentages for comparison
							solve problems involving similar shapes where the scale factor is known or can be found
							solve problems involving unequal sharing and grouping using knowledge of fractions and multiples.

Algebra

Equations

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Have a deep understanding of numbers to 10, including the composition of each number Automatically recall number bonds to 5 and some number bonds to 10 including double facts.		solve one-step problems that involve addition and subtraction, using concrete objects and pictorial	recognise and use the inverse relationship between addition and subtraction and use this to	solve problems, including missing number problems, using number facts, place value, and more complex		use the properties of rectangles to deduce related facts and find missing lengths and angles	express missing number problems algebraically
		representations, and missing number problems such as 7 = -9 (copied from	check calculations and missing number problems. (copied from Addition and	addition and subtraction. (copied from Addition and Subtraction)		(copied from Geometry: Properties of Shapes)	
,	erns within numbers to 10, uble facts and how quantities outed equally	Addition and Subtraction)	Subtraction)	·			

Solve real world mathematical problems with numbers up to 5 Experiment with their own symbols and marks as well as numerals	Explore the composition of numbers to 10 Automatically recall number bonds for numbers 0 -10 Identifying missing numbers from number lines up to 10	represent and use number bonds and related subtraction facts within 20 (copied from Addition and	recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100 (copied from Addition and Subtraction)	solve problems, including missing number problems, involving multiplication and division, including integer scaling (copied from Multiplication and Division)			find pairs of numbers that satisfy number sentences involving two unknowns enumerate all possibilities of combinations of two variables
		Subtraction)					
			Form	nulae			
Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
					Perimeter can be expressed algebraically as 2(a + b)		use simple formulae
							recognise when it is possible to use formulae for area and volume of shapes (copied from Measurement)
			Sequ	ences	algebraically as 2(a + b) where a and b are the dimensions in the same unit. (Copied from NSG		recognise when it is possible to use formulae for area and volume of shapes (copied from
Nursery	Reception	Year 1	Sequ Year 2	ences Year 3	algebraically as 2(a + b) where a and b are the dimensions in the same unit. (Copied from NSG	Year 5	recognise when it is possible to use formulae for area and volume of shapes (copied from

Begin to describe a sequence of events , real or fictional, using words such as "first" "then"	Identifying missing numbers from number lines up to 10 Exploring patterns of double facts	yesterday, tomorrow, morning, afternoon and evening (copied from Measurement)	order and arrange combinations of mathematical objects in patterns (copied from Geometry: position and		
Talk about and identifies the patterns around them. Eg stripes on clothes, designs on rugs and wallpaper (use informal language)	Explore patterns of odd and even numbers to 10 Continue, copy and create repeating patterns		direction)		
Notice and correct an error in a repeating pattern. Notice and talk about properties of objects and patterns.					

Geometry: Properties of Shape

Identifying shapes and their properties

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Shape, space	and measure	recognise and name common 2-D and 3-D shapes, including * 2-D shapes [e.g. rectangles (including	identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line		identify lines of symmetry in 2-D shapes presented in different orientations	identify 3-D shapes, including cubes and other cuboids, from 2-D representations	recognise, describe and build simple 3-D shapes, including making nets (appears also in Drawing and Constructing)

Use 2D/3D shapes purposefully to build/make and ca talk about it using everyday language. Select shapes appropriately: flat surfaces for building, a triangular prism for a roof etc. Combine shapes to make new ones.	Select, rotate and manipulate shapes in order to develop spatial reasoning skills Compose and decompose shapes so that children recognise a shape can have other shapes within it, just as numbers can. Recognise and name common 2d and 3d shapes and talk about properties of sides, corners, edges, faces, curved and flat,	squares), circles and triangles] * 3-D shapes [e.g. cuboids (including cubes), pyramids and spheres].	identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line identify 2-D shapes on the the radius surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid]			illustrate and name parts of circles, including radius, diameter and circumference and know that the diameter is twice the the radius
			Drawing and	constructing		

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Understand position through words alone eg "The bag is under the table" without pointing Select shapes appropriately: flat shapes for building eg a triangular prism for a roof Using construction sets to create various models.	Compose and decompose shapes so that children recognise a shape can have others shapes within, just as numbers can. Using various construction sets in sustained construction projects eg The Shard, The 3 bears beds and chairs			draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them	complete a simple symmetric figure with respect to a specific line of symmetry	draw given angles, and measure them in degrees (o)	draw 2-D shapes using given dimensions and angles recognise, describe and build simple 3-D shapes, including making nets (appears also in Identifying Shapes and Their Properties)

Comparing and classifying

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Talk about and compare 2d and 3d shapes (eg circles, rectangles, triangles and cuboids) using everyday language	Select, rotate and manipulate shapes in order to develop spatial reasoning skills		compare and sort common 2-D and 3-D shapes and everyday objects		compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes	use the properties of rectangles to deduce related facts and find missing lengths and angles	compare and classify geometric shapes based on their properties and sizes and find unknown angles in any triangles,

	Compose and decompose			distinguish between regular	quadrilaterals, and regular
Make comparisons	shapes so that children			and irregular polygons	polygons
between objects relating to	recognise a shape can have			based on reasoning about	
size, weight, length and	other shapes within it, just			equal sides and angles	
capacity.	as numbers can.				
	To sort shapes into				
	categories according to				
	their properties, eg all 3				
	sided shapes, shapes with				
	curved edges.				
		L			

Angles

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
				recognise angles as a property of shape or a description of a turn		know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles	
				identify right angles, recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle	identify acute and obtuse angles and compare and order angles up to two right angles by size	identify: * angles at a point and one whole turn (total 360 degrees) * angles at a point on a straight line and ½ a turn (total 180 degrees) * other multiples of 90 degrees	recognise angles where they meet at a point, are on a straight line, or are vertically opposite, and find missing angles
				identify horizontal and vertical lines and pairs of perpendicular and parallel lines			

Geometry: Position and Direction

Position, direction and movement

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Shape, space	and measure	describe position, direction and movement, including half, quarter and three- quarter turns.	use mathematical vocabulary to describe position, direction and movement including		describe positions on a 2-D grid as coordinates in the first quadrant	identify, describe and represent the position of a shape following a reflection or translation, using the	describe positions on the full coordinate grid (all four quadrants)
Understand position through words alone eg "The bag is under the table" with no pointing Describe a familiar route	Select, rotate and manipulate shapes in order to develop spatial reasoning skills To describe position,	quarter turns.	movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and threequarter turns (clockwise and anti-clockwise)		describe movements between positions as translations of a given unit to the left/right and up/down	appropriate language, and know that the shape has not changed	draw and translate simple shapes on the coordinate plane, and reflect them in the axes.

Discuss routes and locations , using words like in front of and behind	direction and movement including forwards, backwards, sideways, in front, behind, under, over, beside, next to, in between. To begin to introduce left and right.				plot specified points and draw sides to complete a given polygon		
	unu right.		 Pat	tern

Explore and represent pat including evens and odds, do	Identifying missing numbers from number lines up to 10 Exploring patterns of double facts Explore patterns of odd and even numbers to 10 Continue, copy and create repeating patterns		order and arrange combinations of mathematical objects in patterns and sequences				

Measurement

Comparing and estimating

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Compare quantities using language such as "more" and "fewer" Make comparisons between objects relating to size, length, weight and capacity	Compare length, weight and capacity To use prior vocabulary and supplement with Lightest/heaviest/ Tallest/shortest/ Half full/quickest/ Slowest	compare, describe and solve practical problems for: * lengths and heights [e.g. long/short, longer/shorter, tall/short, double/half] * mass/weight [e.g. heavy/light, heavier than,	compare and order lengths, mass, volume/capacity and record the results using >, < and =		estimate, compare and calculate different measures, including money in pounds and pence (also included in Measuring)	calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm 2) and square metres (m 2) and estimate the area of irregular shapes (also	calculate, estimate and compare volume of cubes and cuboids using standard units, including centimetre cubed (cm 3) and cubic metres (m 3), and extending to other units such as mm 3 and km 3.
Investigate measure using appropriate vocabulary Heavy/light/same as/ heavier/lighter/tall/short/L ong/longer/shorter/empty Full/nearly full/nearly	To compare, describe and solve practical problems for >length and heights. >weight >capacity >time	lighter than] * capacity and volume [e.g. full/empty, more than, less than, half, half full, quarter] * time [e.g. quicker, slower, earlier, later]				included in measuring) estimate volume (e.g. using 1 cm cubed blocks to build cubes and cuboids) and capacity (e.g. using water)	

empty	comparisons of measure.	sequence events in chronological order using language [e.g. before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening]	compare and sequence intervals of time	compare durations of events, for example to calculate the time taken by particular events or tasks		
				estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes, hours and o'clock; use vocabulary such as a.m./p.m., morning, afternoon, noon and midnight (appears also in Telling the Time)		

Measuring and calculating

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	To begin to use non – standard units to measure static objects. To record findings during investigations.	measure and begin to record the following: * lengths and heights * mass/weight * capacity and volume * time (hours, minutes, seconds)	choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels	measure, compare, add and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (I/mI)	estimate, compare and calculate different measures, including money in pounds and pence (appears also in Comparing)	use all four operations to solve problems involving measure (e.g. length, mass, volume, money) using decimal notation including scaling.	solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate (appears also in Converting)
				measure the perimeter of simple 2-D shapes	measure and calculate the perimeter of a rectilinear figure (including squares) in centimetres and metres	measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres	recognise that shapes with the same areas can have different perimeters and vice versa
		recognise and know the value of different denominations of coins and notes	recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value	add and subtract amounts of money to give change, using both £ and p in practical contexts			
			find different combinations of coins that equal the same amounts of money				
			solve simple problems in a practical context involving				

			including giving change		find the area of rectilinear shapes by counting squares	calculate and compare the area of squares and rectangles including using standard units, square centimetres (cm 2) and square metres (m 2) and estimate the area of irregular shapes	calculate the area of parallelograms and triangles
						recognise and use square numbers and cube numbers, and the notation for squared (2) and cubed (3) (copied from Multiplication and Division)	calculate, estimate and compare volume of cubes and cuboids using standard units, including cubic centimetres (cm 3) and cubic metres (m 3), and extending to other units [e.g. mm 3 and km 3].
							recognise when it is possible to use formulae for area and volume of shapes
			Telling ·	the time			
Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Understand position through words alone Begin to describe a	To sequence a familiar set of events both fictional and nonfictional	tell the time to the hour and half past the hour and draw the hands on a clock face to show these times.	tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a	tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12-hour	read, write and convert time between analogue and digital 12 and 24-hour clocks (appears also in		

recognise and use language relating to dates, including days of the week, weeks, months and years	know the number of minutes in an hour and the number of hours in a day. (appears also in Converting)	estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes, hours and o'clock; use vocabulary such as a.m./p.m., morning, afternoon, noon and midnight (appears also in Comparing and Estimating)			
			solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days (appears also in Converting)	solve problems involving converting between units of time	

Converting

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
			know the number of minutes in an hour and the number of hours in a day. (appears also in Telling the Time)	know the number of seconds in a minute and the number of days in each month, year and leap year	convert between different units of measure (e.g. kilometre to metre; hour to minute)	convert between different units of metric measure (e.g. kilometre and metre; centimetre and millimetre; centimetre and millimetre; gram and kilogram; litre and millilitre)	use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to three decimal places
					read, write and convert time between analogue and digital 12 and 24-hour clocks (appears also in Converting)	solve problems involving converting between units of time	solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate (appears also in Measuring and Calculating)
					solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days (appears also in Telling the Time)	understand and use equivalences between metric units and common imperial units such as inches, pounds and pints	convert between miles and kilometres

Statistics

Interpreting, constructing and presenting data

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
· ·	G: g of number to 10, including of each number		interpret and construct simple pictograms, tally charts, block diagrams and simple tables	interpret and present data using bar charts, pictograms and tab <i>les</i>	interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time graphs	complete, read and interpret information in tables, including timetables	interpret and construct pie charts and line graphs and use these to solve problems
Experiment with their own symbols and marks as well as numerals	bols and marks as well as numerals Introduction to simple tally charts	ask and answer simple questions by counting the number of objects in each category and sorting the categories by quantity					
	Use of 3d block towers to vote for storytime book		ask and answer questions about totaling and comparing categorical data				

Solving problems

Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6

	solve one-step and twostep questions [e.g. 'How many more?' and 'How many	solve comparison, sum and difference problems using information presented in	solve comparison, sum and difference problems using information presented in a	calculate and interpret the mean as an average
	fewer?'] using information	bar charts, pictograms,	line graph	
	presented in scaled bar	tables and other graphs.		
	charts and pictograms and			
	tables.
